The WNY Women’s Foundation is the leading advocate for issues affecting women and girls in our region. Advocacy is a major part of our work and one way to ensure the women in our community have the support, resources, and networks they need to thrive.

**But what is advocacy?**

*Conversations*
Advocacy is bringing together dozens of people for hundreds of conversations across New York State.

*Systemic Change*
Advocacy is how we create systemic change and tackle big issues that empower women and promote gender equity.

*Partnerships*
Advocacy is coming together with like-minded partners to collectively lift up our voices for women and girls.

These little conversations can lead to big changes for people in our community like you.

Take Brenda, for example. Brenda is a working mother who has trouble
affording child care for her daughters—especially because she and her husband earn just enough that they do not qualify for Erie County’s child care subsidy program. Their salaries are barely over the threshold set by the County and State, but they still can’t afford the high cost of child care.

Enter the WNY Women's Foundation!

Thanks to our advocacy work at the state level, and our partnerships with WNY state elected officials and child care advocates across New York State, we were able to successfully advocate for $500,000 for child care subsidies in the state budget that cover parents like Brenda.

Mothers like Brenda shouldn’t be forced to choose between going to work or staying home to care for children. Advocacy has made a difference in Brenda’s life—and in the lives of hundreds of parents across Erie County.

Especially during times of crisis, it is critically important to lift up our voices for women and girls.

But we can’t do it without YOU!

Ensure these conversations keep happening, and big changes keep coming to our neighborhoods, by supporting the ongoing advocacy work of the WNY Women's Foundation.

**Good News!**

We are thrilled to announce that Buffalo has been selected as the location for a new regional Women’s Economic Mobility Hub. Thanks to a prestigious grant from the Women’s Funding Network, these hubs will increase support and resources necessary to advance economic mobility among women and girls in communities across the United States.

We are looking forward to partnering with Harvest House and Buffalo Center for Arts and Technology on this new hub and expanding our nationally-recognized MOMs: From Education to Employment® program into workforce development training.
